Datasheet

JS36H5

JS36H5 is a new type of lifting column suitable for innovative styling in different application scenarios in office, home decoration, and commercial environments.

It can be hidden in the wall to save space and is equipped with a anti-collision function for safe lifting.

Features

- Rated load: 500N
- Noise: ≤ 53 dB
- Max. speed: 30mm/s
- Dimensions: 879mm*102mm*50mm
- Stroke: 500mm
- Out tube size: 102mm*50mm*2mm
- Surface: powder-coating
- Standard colors: black, white, gray

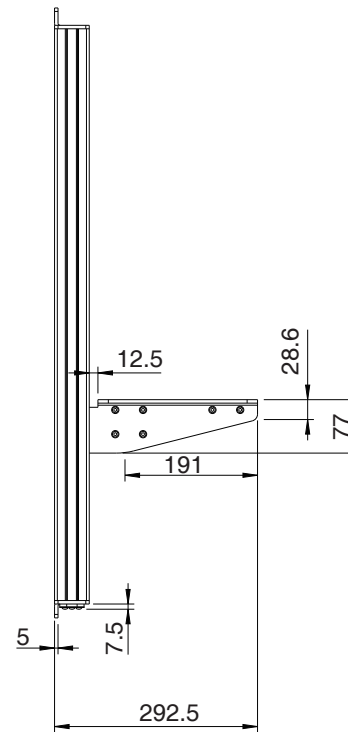

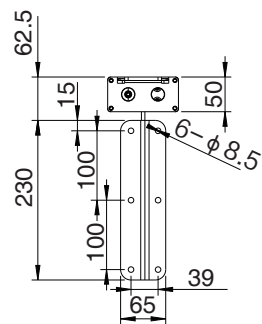

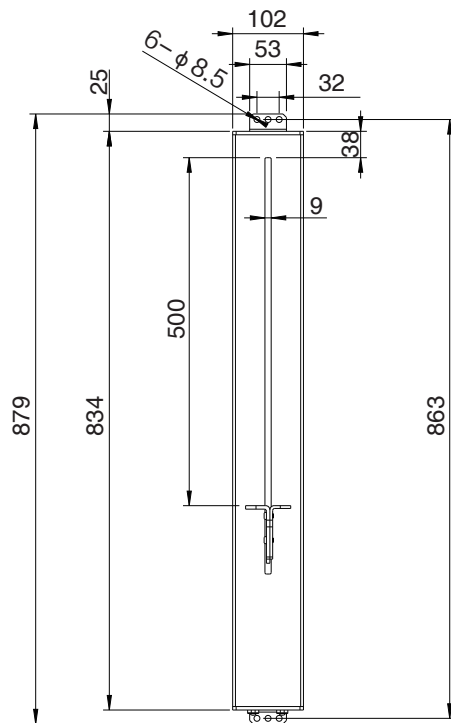

Usages

- The dual columns can run synchronously or single column can run independently.
When running with a single column, the tabletop should not exceed 600mm * 400mm with an adapter.
When running with two columns, the tabletop should not exceed 1200mm * 600mm.
- Compatible with control box: NE series, NH series
- Duty cycle: Max. 2 minutes operation / Min. 18 minutes rest of continuous use at full load
- Working environment: indoor
- Storage and transport temperature: -10° C ~ 70° C

Technical specifications

Model	Rated load (N)	Static loading (N)	Rated load current (A)	Maximum speed no load ~ rated load (mm/s)	Duty cycle	Stroke (mm)
